

School Council 5.11.25

Isla, Wes, Harper, Zizi, Dotty, Harry, Louis, Max

Agenda:

1. Questions from last time
2. New suggestions

Key - black writing is information, green writing is actions for class councils, red is actions for adults

1. Suggestions from last time

Clubs

At the moment we are doing litter picking but this will change to drama in a few weeks.

After In the Spring Term we will have sewing and drawing followed by others tbc.

Money from last term

We asked classes to vote for a new playground toy costing up to £150. Classes voted for the crazy catch game. Mr Kerkham to ask PTA to buy.

Badge for the school mascot:

We have had a few designs done and handed in already. Do more designs in class or at home and hand them in. School council will judge the best one next week. Anna will draw the design for school council as Harry and Dotty said she is the best artist in school.

Name for the school mascot:

Eagle Owls said Mrs Allen has a suggestions box with names from Eagle Owls. Tawny Owls suggested the following: Chase, Pancake, Snowdrop, Muffin, Aero, Snowy. **Mr Kerkham needs to ask Mrs Allen for the suggestions box.**

School Council received their badges - Zizi took Elijah's badge for him.

2. New Suggestions

Will swimming be happening? **Mr Kerkham will find out.**

Can we have a computer games club? School council thought it would be good and doable if we have a games and board games club weekly if the computer games are ones we can do on laptops and if the board games club runs at the same time. They thought this would be good in the Winter months. **Mr Kerkham will probably run this club in January.**

Will lines be marked on the football pitch? **Mr Kerkham will find out.**

Goals. Can we have new ones? They aren't broken yet but they are held together with masking tape. Perhaps we can have a fundraising push for this. **Could classes think about what fundraising activity we can do for new goal posts. Suggestions needed for next school council meeting.**

Science club? Perhaps we can have a STEM club in the Summer term. **Mr Kerkham will do some research on what this would cost and what he can do.**

Next meeting is Tuesday 18th November in the morning.
