

School Council 18.11.25

Isla, Wes, Harper, Zizi, Dotty, Harry, Louis, Max

Agenda:

1. Suggestions from last time
2. New suggestions

Key - black writing is information, green writing is actions for class councils, red is actions for adults

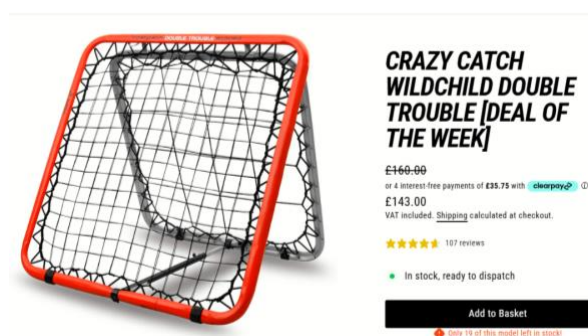

1. Suggestions from last time

Clubs

This is the last litter picking week. Then we will do a drama club - details to be arranged.

In the Spring Term school council lunch time club will be Computing and Board games.

Money from last term

This has arrived and is being used.

Badge for the school mascot:

School council judged the badge designs and voted for Marley and Remy's designs. Anna will draw the design for school council before the next meeting in 2 weeks. Mr Kerkham will then get the badge made.

Name for the school mascot:

School council voted that the school mascot name will be Muffin.

Will swimming be happening? Yes in the Summer for KS2.

Will lines be marked on the football pitch? Yes but can it be simple. School council agreed a simple design. **Mr Kerkham will give this to Mrs Odell.**

Goals. Can we have new ones? Classes suggested the following fundraising ideas:

- Break the Rules Day - yes we will do this Monday 15th December
- Sponsored run Yes - in the Spring Term - Thursday 12th February
- Opposites Day - children teach the classes. Not as a school wide event, but if your teacher can arrange it for your classes, there is no reason that this couldn't happen. Mr Kerkham tried it twice with his classes and it wasn't very easy to manage. The best way is to allow children to do a show and tell with their Child of the Day turn. Alternatively if someone has a burning desire to teach the class about something, they should speak to their teacher. You may want to share your cultural heritage or share a new hobby you have done. If you have won a competition out of school, please tell your teacher so this can be shown in celebration assembly. Speaking in front of a group is a valuable skill that should be encouraged and taught.

Science club? Perhaps we can have a STEM club in the Summer term. **Mr Kerkham to do some research on what this would cost and what he can do.**

2. New Suggestions

Break the Rules day: Children voted for the following rules to be broken for 50p each: juice in your water bottle, bring in a small teddy that can sit on your table, have crazy hair, wear own clothes, have equipment on the field.

Children said that last time some children didn't donate as they should have done. We said that Y6 should be on the gate with a collection bucket at the start and end of the day. **Mr Kerkham to arrange who. Mr Kerkham will advertise the day and rules in the newsletter.**

Would Eagle Owls like to design a poster which emphasizes what we are raising money for and the cost for each rule? Class council can be done in class assembly time. Can this be done as a Collective worship activity?

Sponsored run to raise money for goal posts ... This can be in the Spring Term? You would run round the school field in your PE lesson and ask adults to say how much money they would give you for each lap. There would be a form to take home before so you can collect promises and then you have to tell the adults how many laps you did so they have to then give you the money to hand in. **Mr Kerkham communicate with Rob.**

Can we raise money for a cancer charity after we have raised money for the goal posts? Yes great idea.

Job for classes - No extra jobs this time. Just hear any new suggestions.

Next meeting is Wednesday 3rd December 11:30
